

## IBM SPSS v27 Installation and Registration (Mac)

The following set of instructions will walk you through installing IBM SPSS on your computer.

SPSS version 27 is compatible on the following Mac Operating Systems:

- OS Catalina 10.15 (see [release notes](#) for important tips)
- OS Mojave 10.14
- OS High Sierra 10.13
- OS Sierra 10.12

**We suggest that you first obtain the SPSS license code before you begin downloading SPSS.**

Students may obtain the SPSS license code from this link:

<https://alaureatena.sharepoint.com/sites/walden-university/student-documents/spss/Pages/default.aspx>

Faculty may obtain the SPSS license code from this link:

<https://laureatena.sharepoint.com/sites/walden-faculty-spss>

Simply copy and paste the code into a Word document so that you have it available when prompted to enter it at the end of the installation sequence. You can always enter the code later; however, having it on hand to enter during the installation is much easier.

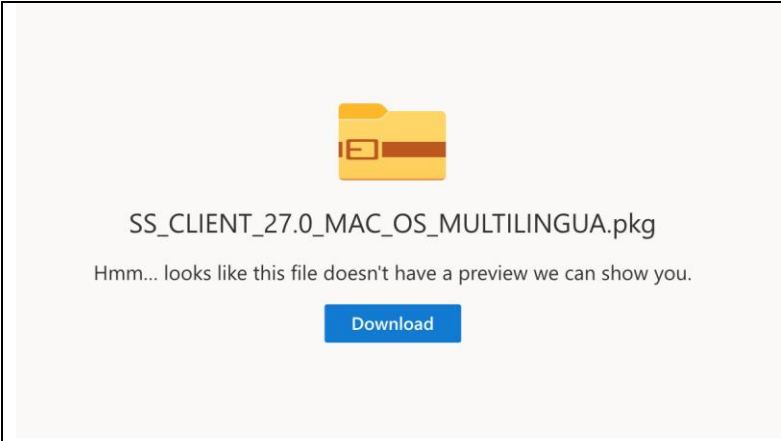

SPSS software installation link for the MAC is given below.

Mac: <http://mym.cdn.laureate->

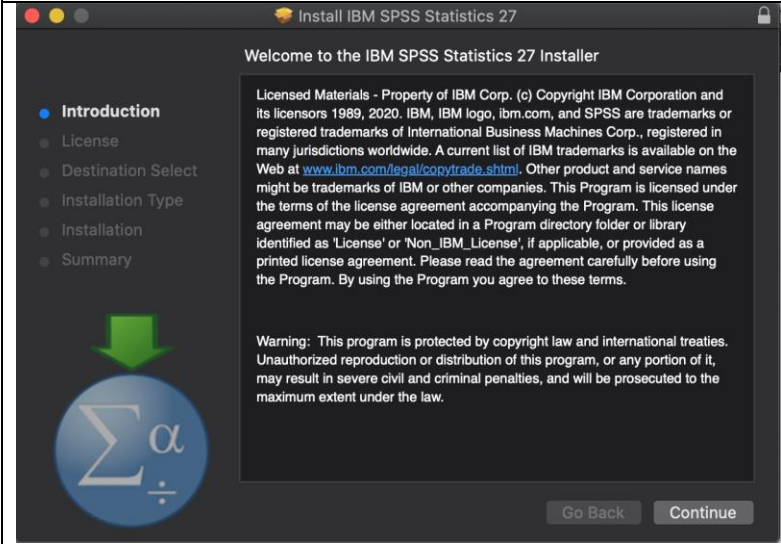

[media.com/2dett4d/software/IBM/SPSS/v27/SS\\_CLIENT\\_27.0\\_MAC\\_OS\\_MULTILINGUA.pkg/SS\\_CLIENT\\_27.0\\_MAC\\_OS\\_MULTILINGUA.pkg](http://mym.cdn.laureate-media.com/2dett4d/software/IBM/SPSS/v27/SS_CLIENT_27.0_MAC_OS_MULTILINGUA.pkg/SS_CLIENT_27.0_MAC_OS_MULTILINGUA.pkg)

This installation requires at least 1GB of free space on your computer. Because of the large size of the installation file, it is recommended that you are on a DSL or better internet connection. Even with a strong internet connection, the installation may still take up to 30 minutes or longer. While the tool is installing, you may continue to work within other applications on your computer.

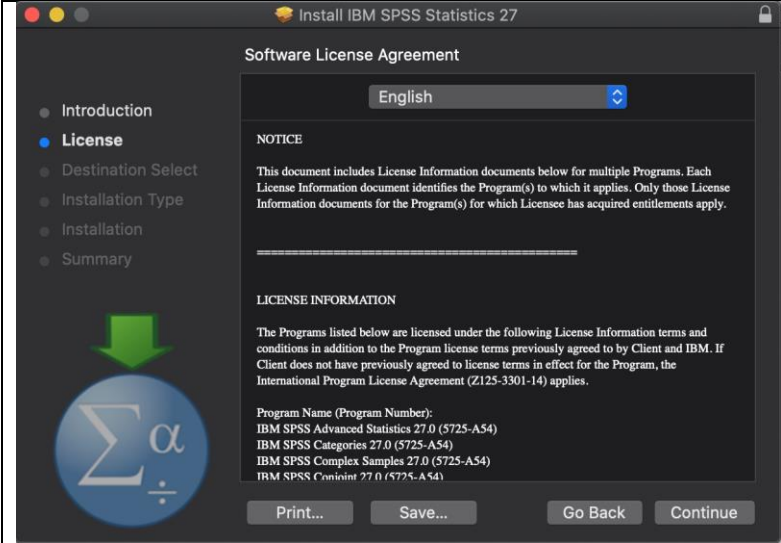

**Note:** [Java Runtime Environment](#) must be installed on your computer in order for SPSS to run. If you experience any issues with SPSS or if you are prompted, you may install Java SE Runtime Environment 7u45 from the Oracle website.

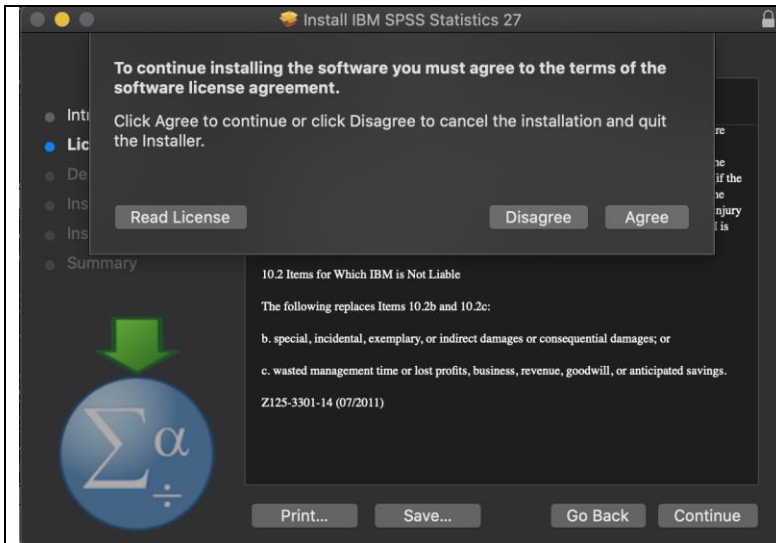

When prompted, download the file on your computer. (Note: Depending on your browser, this screen may look a little different.) This step may take up to about 20 minutes if you are on a 128 Kbps internet connection. Once the file has been saved, run the file.

The install wizard will appear. Click **Continue** to review the License Agreement.

Review the License Agreement, then click **Continue**.

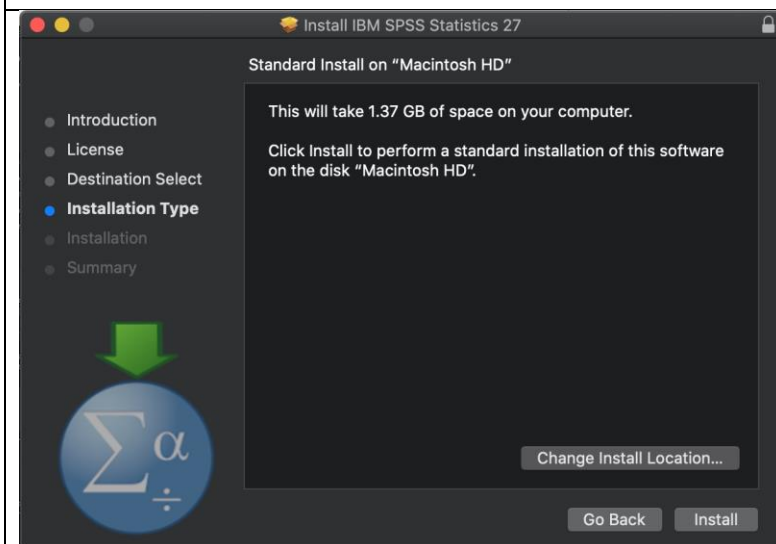

Click **Agree** to continue with the software installation.

Select the destination on your computer where you wish to save the file. Then click **Continue**.

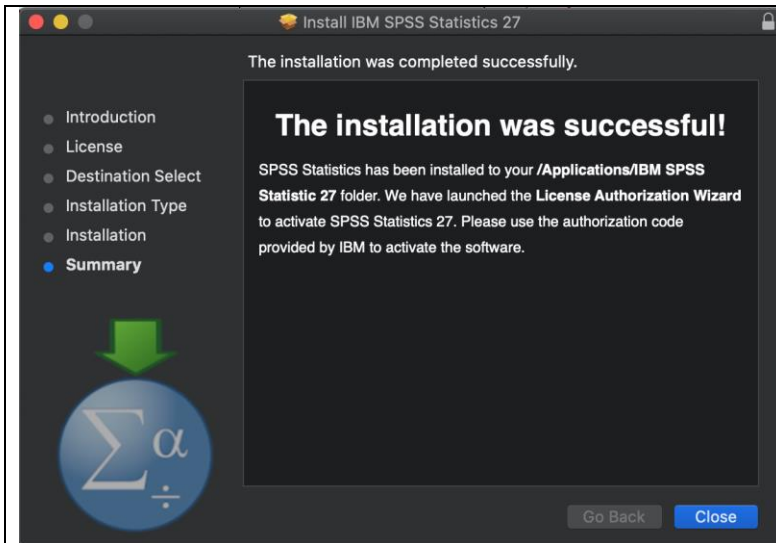

The default install location will automatically be chosen. You can change this in the next step.

If you wish to change the installation location, click the **Change Install Location** button and browse to your desired location.

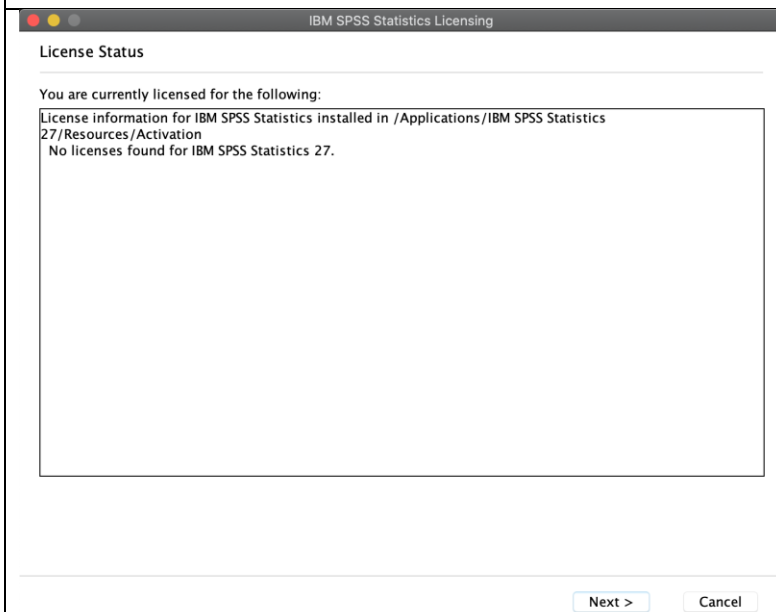

Then click on **Install** to begin installation.

The install may take several minutes depending on the speed of your computer.

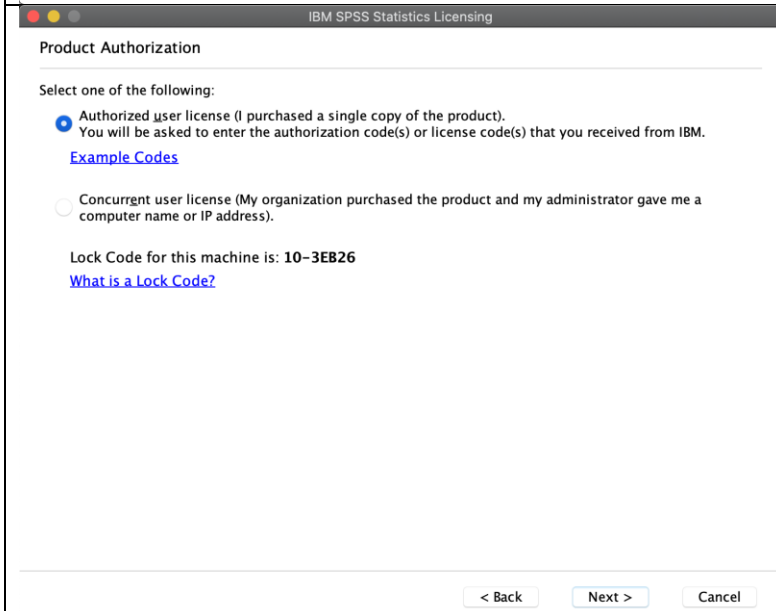

Once the install has completed, click **Close** and navigate to the **License Authorization Wizard**.

**Note:** The License Authorization Wizard should have automatically launched when the installation completed.

When you locate the License Authorization Wizard, click on the **Next** button.

When prompted, for the license type, select **Authorized user license** and click **Next**.

## Home

### IBM SPSS Statistics Version 25 License Code

Version 25 is recommended if you are using one of the following Operating Systems:

- Windows 10
- Windows 8
- Windows 7
- OS Mojave 10.14
- OS High Sierra 10.13
- OS Sierra 10.12

Copy the following code into the "Enter Codes" screen in the SPSS installation wizard - **6214252-1-0-267000**

This code will be valid through September 2020. At that time, you must re-visit this site for an updated license code.

### IBM SPSS Statistics Version 24 License Code

If you currently have v.24 installed, and choose not to upgrade to v. 25, that is fine. You are required to update your license.

Copy the following code into the "Enter Codes" screen in the SPSS installation wizard - **6214252-1-0-267000**

This code will be valid through September 2020. At that time, you must re-visit this site for an updated license code.

If you haven't already done so, obtain the SPSS license code: Students may obtain the SPSS license code from this link:

<https://alaureatena.sharepoint.com/sites/walden-university/student-documents/spss/Pages/default.aspx>

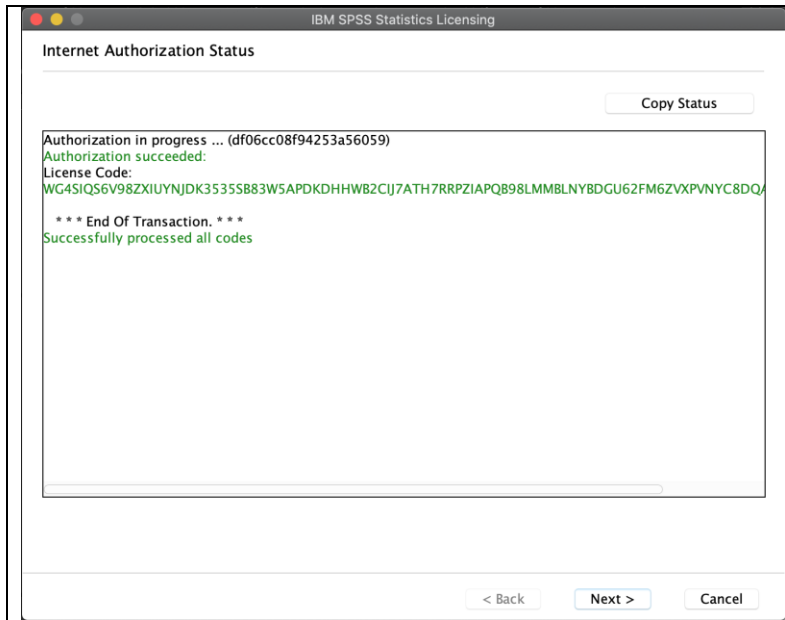

Faculty may obtain the SPSS license code from this link:

<https://laureatena.sharepoint.com/sites/walden-faculty-spss>

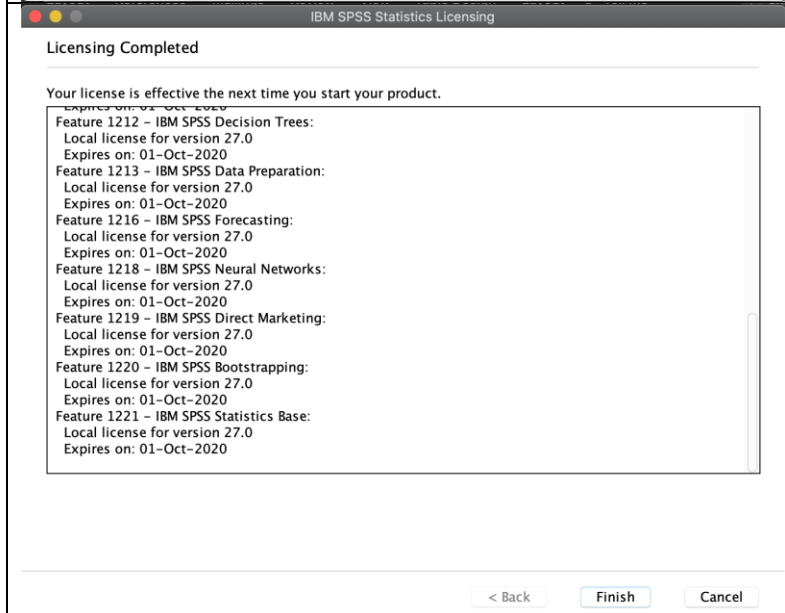

The screenshot shows the 'Enter Codes' dialog box in the IBM SPSS Statistics Licensing window. The title bar reads 'IBM SPSS Statistics Licensing'. The main text says: 'Enter your authorization code(s) here to license your product. If you have already contacted IBM via email or phone, please enter the license code(s) you received from IBM.' Below this are two links: 'Licensing Overview' and 'Example Codes'. There is a section labeled 'Enter Code:' with a text input field containing a yellowed-out code and an 'Add' button. Below the input field is a 'Remove Code' button. At the bottom, there is a note: 'The authorization code(s) will be electronically sent to IBM.' with a link to 'Proxy Server Settings'. At the very bottom of the dialog are three buttons: '< Back', 'Next >', and 'Cancel'.

Copy that code and paste it into the **Enter Code** field. Then click the **Add** button to add your license to the product. Finally, click **Next** to continue.

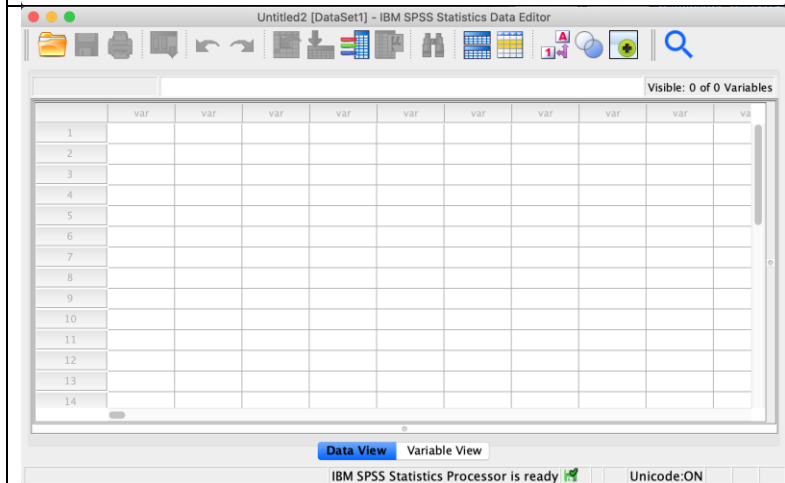

This code will only license the software until September 30. At that time, you will need to access the page referenced above to receive an updated license code. For instructions on how to update your license, access the following link – [http://mym.cdn.laureate-media.com/2dett4d/Walden/software/IBM/SPSS/Documents/WAL\\_SPSS\\_Updating\\_an\\_Expired\\_License.pdf](http://mym.cdn.laureate-media.com/2dett4d/Walden/software/IBM/SPSS/Documents/WAL_SPSS_Updating_an_Expired_License.pdf)

If your code is authorized, you will receive a notice indicating that your authorization was successful. Click on the **Next** button to continue.

You should then receive confirmation that your copy of SPSS has been licensed. Click the **Finish** to complete the setup.

SPSS will then be ready for use.

Please note: This copy of SPSS is provided to Walden students solely for academic purposes (completing required course work) and is not authorized for commercial or personal application outside of your Walden assignments and research.
